

## RT-4PS Radio Transceiver Connection Cable

### Solidtronic 4-pin 3.5mm Long Connector Straight Cable

**The 4PS Radio Transceiver Connection Cable is a multipurpose connection cable. It is not only used on modules, such as the M16 and M26, to connect gateways and radios, but also used to extend the gateway to support all transceivers by DIY.**

### Step-by-step to DIY a Connection Cable:

1. Cut the cable half and half, one for use, and the other for spare
2. Carefully remove the outer jacket of the cable
3. Carefully remove the jacket of each wire
4. Verify the pins by a multimeter
5. Solder the pins to the connector of transceiver
